STERILE LATEX EXAM GLOVES

COLOR
Cream

LENGTH
9"

THICKNESS
4-6mil

METHOD OF STERILIZATION
Irradiation (North America)

FEATURES

- For medical purposes, cross contamination protection between patient and examiner is performed.
- Excellent elasticity and softness, fit to the skin of the hand, providing excellent tactile sensitivity and operating flexibility.
- The powder-free interior of the polymer coating makes it easy to put on and take off.
- The glove has a textured surface for a secure grip and increased precision of handling.

APPLICATIONS

- Medical Purpose / Examination
- Dentistry / Dental Hygiene
- Healthcare and Nursing
